

Is your data backed up continuously and safely stored off site? Do you have peace of mind?

NETCARE REMOTE BACKUP SOLUTIONS

Information Technology Systems Group, Inc.

If you Lose All Your Data Today....

Will You Still Be In Business Tomorrow?

Protect Your Data with Remote Backup

Research shows that 90% of companies that lose their data in a disaster are out of business within 2 years. Yet, most companies do not effectively backup and protect their critical data offsite.

NetCare Remote Backup Service

I T Systems Group's [NetCare Remote Backup Service](#) seamlessly integrates desktop or server backup, offsite storage, archiving and recovery into one tape-free solution.

Why NetCare?

Your data is safely stored offsite at a secure data centers for the best disaster recovery available.

No wait recovery— Recover your data on demand—downtime is minimized. Utilize a simple interface to initiate restores online from anywhere.

No Tape, No Hassles, Lower Costs—Tapeless backup and recovery means no hardware requirements or employee resources to remember to change the tapes.
